

Introduction to GIS with ArcGIS Pro

Getting Started with ArcGIS Pro: Introduction to ArcGIS Pro and Project Structure

Week 1: Session 1

Palash Basak, PhD

About you, the participants

Dhaka University

Jahangirnagar University

Jagannath University

Chittagong University

Khulna University

Bangladesh Agricultural University

and many other educational and professional organizations

About the Facilitator of the Course

Palash Basak, PhD

- Currently working as a Geosolution Consultant in an Australian organization
- Learning and Using ArcGIS products for about 30 years.
- Studied Geography & Environment, Urban and Resource Planning, Sustainable Resource Management
- Worked in home and abroad, in private and public sectors
- Taught in DU, BUET, NSU, University of Newcastle, etc.
- Developed expertise in Enterprise, Web and Cloud GIS.
- In addition to GIS, expanded skills in Remote Sensing, Database Management, Programming, Data Science, etc.

Key expectations of the participants

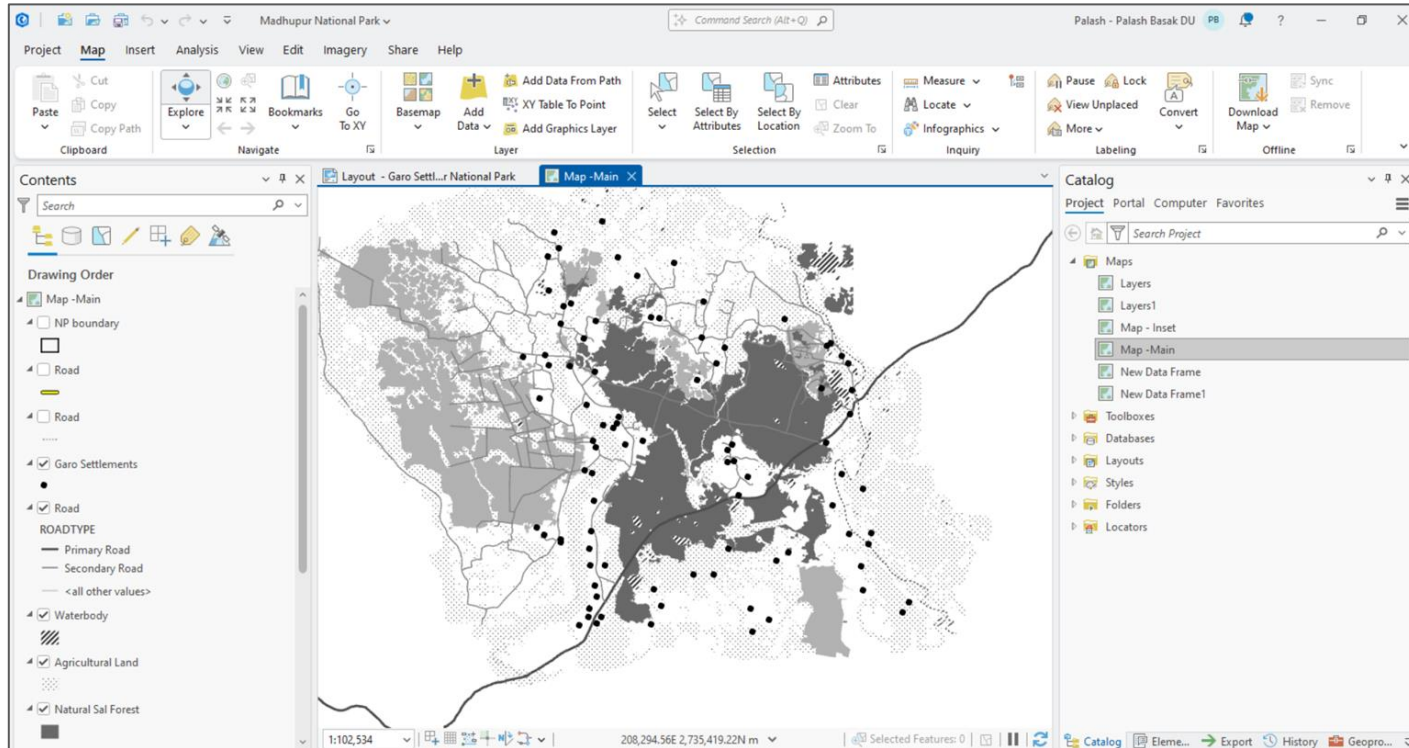

Learning GIS Fundamentals: Many participants expressed a clear desire to acquire foundational knowledge in Geographic Information Systems (GIS), with common phrases like "Learning GIS," "Learn GIS," and "Basic GIS" appearing frequently.

Practical Skills and Application: Participants are keen on gaining practical skills, specifically mentioning "hands-on experience with ArcGIS Pro" and applying GIS knowledge in "data analysis" and "research work."

Professional and Academic Development: The course is seen as a means to enhance skills for "future professional and personal development" and to strengthen "research capacity."

Advanced Knowledge: Some participants, already possessing basic GIS knowledge, are looking to gain "professional level knowledge" from the course.

Introduction to ArcGIS Pro

Introduction to ArcGIS Pro

A full-featured professional desktop GIS application from Esri.

Explore, visualize, and analyze data

Create 2D maps and 3D scenes

Share your work to ArcGIS Online or your ArcGIS Enterprise portal

ArcGIS Product ecosystem

ArcGIS Online

Complete software as a service (SaaS) mapping platform

ArcGIS Pro

The world's leading GIS software

ArcGIS Enterprise

Flexible mapping and data management server software

The screenshot shows the Esri Bangladesh website. The header includes the Esri logo and 'Bangladesh' text, followed by navigation links: 'Industry solutions', 'Products', 'Services and support', 'About', and 'Contact us'. A search icon is on the right. Below the header, a breadcrumb trail reads 'Products / About ArcGIS / ArcGIS for Personal Use'. The main content area features the title 'ArcGIS for Personal Use' and the tagline 'Maximise your mapping potential'. A blue 'Buy now' button with a right arrow is positioned below the tagline. The background of the main section is a composite image: on the left, a white wireframe map of a landscape; on the right, a man with glasses and a dark jacket smiling while holding a white mug. Overlaid on the man and the background are several hexagonal icons containing various GIS-related graphics, including a map with a white dot, a bar chart, a line graph, and a map with a white dot. Text labels are scattered around these icons: '40° N 30° W' near the top center, '35.24' near the bar chart, 'Δ33.037' near the bottom left, and '+ 25.398' near the bottom right.

- GIS Professional Advanced user type
- A suite of ready-to-use apps
- The most popular ArcGIS Pro extensions
- 100 credits for data storage, premium data access, and geocoding and analysis
- Unlimited access to self-paced e-learning
